

MBPS COMPULSORY SCHOOL UNIFORM AUGUST 2019

This term we would like to encourage all of our students to wear the correct school uniform as this sets the tone of the school. Many students have been wearing all sorts of different clothing items and we are asking parents to please send your child in our school uniform with all items named.

Why School Uniforms?

School Uniforms contribute positively to students' behaviour. When students wear uniforms, they feel more professional and behave accordingly. Fashion trends and status symbol clothing can distract students. Therefore, when all students are dressed in regulation uniforms, there is less focus on fashion in the classroom and more focus on learning.

School Uniform makes mornings easier for parents and for kids. Everyone knows exactly what the kids need to wear, their regulated school uniform. This can lead to a decrease in morning arguments.

By having, all children dressed the same; there is a decrease in bullying and teasing. In this era of status brands and high-fashion trends, clothing has become the definitive status symbol for children and teens.

By evening the playing field with uniforms, there is less opportunity for children to be picked on or shunned for their clothes.

When the entire school is dressed in uniforms, they develop a stronger team mentality. When they are all dressed alike, their all-for-one-and-one-for-all comradery is boosted.

Buying school uniform is much more economical. School uniforms are designed to stand up to everyday wear and repeated washing so; most parents find that they can get away with buying a few sets.

The uniforms provided by PSW provide UV protection.
